

Technical Partner Program | Partner Benefits and Requirements

Cortech Developments

Established in 1992, Cortech Developments is a successful UK based company who specialise in software integration solutions for smarter building, fire and security systems. We have a proven track record in delivering software development and integrated system solutions throughout the UK and globally for high security environments and critical infrastructure, enabling organisations to reduce operational costs and enhance operational efficiency.

Our core product Datalog is a modular based software suite that has been developed as a single or multi user Graphical User Interface. It provides local and remote site monitoring and control for single or multiple sites and allows the user to be able to consolidate third-party systems into one central manageable operation.

From a recent customer satisfaction survey, over 90% of our customers who were asked, said that they would recommend Cortech Developments or our core product, Datalog, to others.

Technical Partner Programme

Cortech Developments is looking for partners who match our commitment and drive to deliver industry leading solutions, providing end-users with efficient and effective solutions, creating a real return on their investment.

Your knowledge, expertise, advocacy and loyalty allow us to provide customers with a solution that will successfully improve life, safety and site security while mitigating modern day life risks, to all forms of organisations.

We will communicate with you through our Partner Portal, with marketing literature, training records and news, ensuring you can help address the needs of customers concerns.

Partner Benefits

Cortech Technical Partners can take advantage of a host of benefits by joining our Technical Partner Programme, from access to our demonstration facility in Knutsford to engineer, manager and operator training courses.
